PRISON MINISTRY

Dear Mr. Molitor,

I am writing to thank you for Professional Home Solution's generous donation of the materials and labor necessary for creating a well constructed and much needed locking storage closet at the St. Margaret of Cortona Transitional Housing program. Your company's contribution not only protects curious children from accessing a potentially dangerous hot water heater but also provides much needed storage space.

Since its inception in March of this year, St. Margaret of Cortona's has already provided housing and a range of supportive services including case management, advocacy, financial literacy classes, parenting classes, children's services and a career advancement program to 17 persons previously residing in homeless shelters.

All of these residents and their children can now access a safe and child friendly multi-purpose room thanks to Professional Home Solution's thoughtful contribution of craftsmanship and quality materials.

The improvements Professional Home Solutions made will impact the lives of families transitioning out of homelessness for years to come. For your record keeping I would like to note that Catholic Charities did not transfer any goods or services of any value in connection with Professional Home Solution's valuable donation.

Once again, thank you for your generous support.

Sincerely,

Christine Roach Neijstrom  
Program Director  
St. Margaret of Cortona Transitional Residences
